## Summary

---

Dynamic and enthusiastic Software Engineer with a solid foundation and hands on experience in software development. Proficient in C#, Asp.Net, Laravel and JavaScript with a keen interest in web development and application design. Seeking to contribute to the growth of an organization where my analytical, functional and technical skills could be utilized to the fullest extent.

## Education

---

**Advanced Diploma: Information Technology – Software Development (2021)**

Nelson Mandela University – Port Elizabeth

**National Diploma: Information Technology – Software Development (2018 – 2020)**

Nelson Mandela University – Port Elizabeth

## Experience

---

### Junior Software Engineer

MIP Holdings

09/2022 – present

- Led comprehensive code reviews, enforcing coding standards and validating unit test integration, resulting in an outstanding 80% enhancement in code quality across projects.
- Engineered, tested, and deployed dynamic web applications proficiently utilizing Progress ABL, ensuring seamless functionality and user satisfaction.
- Innovated an API solution that streamlined letter and communication generation processes, slashing creation and setup times by an impressive 45%.
- Elevated system agility and operational efficiency by a remarkable 40% through the modernization of legacy software systems within the organization.

### Systems Developer Intern

Altron People Solutions

09/2021 – 08/2022

- Led the end-to-end development cycle, encompassing analysis, design, development, and rigorous testing phases.
- Spearheaded the creation of a robust ticketing system leveraging Asp.Net MVC, JavaScript, and Microsoft SQL Server, ensuring seamless functionality and user experience.
- Collaborated on the enhancement of an internal ticketing platform, facilitating online request submissions for a user base of 5K individuals.
- Applied Object-Oriented Programming (OOP) principles to architect and implement intricate features within the ticketing system, prioritizing scalability and maintainability.
- Evaluated user requirements meticulously and recommended software design solutions, aligning technology with user needs effectively.

## Skills

---

C#, Asp.Net MVC, PHP, Laravel, JavaScript, React, MySQL, MS SQL Server, HTML, CSS, Git, TFS.

## Projects

---

**We-Recruit:** <https://we-recruit-website.vercel.app/>

- Developed and implemented a responsive web application for browsing and applying for jobs using HTML, CSS and JavaScript.
- Implemented job section, application page and filtering jobs.

**Blockbuster:** <https://blockbuster-nine.vercel.app/>

- Developed and implemented a responsive web application for searching movies with certain keywords using React.
- Implemented an API that will return all the movies that contain the specified keyword.

## Certificates & Training

---

CCNA Routing and Switching: Introduction to Networks.
